Preparation

Halloween is a party, so this plank is a party too!

Preparation:

Cut the different cheeses into different shapes.

For the pumpkin cheese, we cut cubes and also used a pumpkin cut-out mould.

Make strips, dots, cubes and possibly slices of the other cheeses. Cut also cut the plums.

Place the different cheeses spread out on the cheese board. Between the cheeses the nuts and plums. Make slices of the grilled sausage and place these between the cheeses as well. Fill the empty spaces with ghost chips. Add the dips and your board is ready!

For this plank, we used small pumpkins and paper bats and spiders for decoration. So you can make the shelf as cosy or spooky as you like!
